

**“Why Truth Matters”**

**Intro:** We live in an age where it is common to hear terms such as ‘My Truth’ and ‘Your Truth’, and people are encouraged to believe whatever they want. Anyone who claims to know absolute truth is seen as dogmatic, divisive, and intolerant.

At the same time, we live in an age where it is increasingly difficult to know what’s real and what’s not. Many people simply don’t know what to believe anymore; they are genuinely unsure what is trustworthy, reliable and ... true!

As Dr Mark Harwood explains, truth is real—and it can be known. What’s more, we all desperately need it, so that we can build our lives on a steady foundation of reality.

How do we know that what we believe is actually ‘true’?
